# REMINE PRO: A HOT CUP OF REAL-T

*In its simplest form, Remine Pro is a robust farming tool that combines consumer and property data to provide real estate agents and clients alike with a comprehensive view of a property. Enabling REALTORS® to connect with home buyers, sellers, and lenders on a single platform, Remine Pro makes it easier than ever to collaborate with others throughout the transaction process. Merging MLS and off-market data with predictive sales analytics, Remine Pro will change the way you think about MLS technology, including what it can be.*
